

# What is Marlite ?

Marlite is the registered trade-mark for the new deluxe high heat baked melamine plastic enamel finished wall and ceiling panels manufactured only by Service Industries Pty. Ltd.

The surface is high-heat-baked through an exclusive process which fixes colours permanently and seals the surface against dirt, grime, moisture, grease, alkalies, stains and most acids. The base material is world famous Masonite Tempered Presdwood in 3/16 in. thickness. Masonite Tempered Presdwood has long been recognised as the superior hardboard for all interior applications where durability and long lasting qualities are desired and is an approved hardboard for interior applications in all States of the Commonwealth.

★

SERVICE INDUSTRIES PTY. LTD  
Melbourne and Sydney

## Walls and Ceilings <sup>\$2</sup> Easily Covered with Marlite.

You who have seen walls and ceilings of Marlite already realize its beauty, but you may not realize how simple it is to install. The large wall-size panels are applied over plaster, plywood, wall board, or any other materials that are dry and reasonably straight . . . all without the usual litter and disorder of remodelling. Marlite is easily sawed, planed, and fitted around windows, doors and fixtures, using customary wood working tools. Panels are cut and fitted, then attached to the existing wall with waterproof adhesive or with 16 gauge 1 in. panel pins.

Colorful, decorative mouldings add lasting beauty to any Marlite wall panel installation. Distinctive aluminium mouldings in polished, satin or high gloss enamel or Stippletone finishes; also sparkling cream plastic mouldings are readily available. See the Marlite dealer near you for complete information.

New Stippletone\* Finishes in Blue Green Pink Yellow and Grey

*\* Stippletone is the new exclusive Marlite finish which closely resembles mottled ceramic tile.*

For today's modern kitchens, the high-heat-baked melamine plastic enamel finishes on the new Deluxe Marlite wall panels assures long lasting beauty — actually repels grease, stains, alcohol, acids and alkaloids. This outstanding feature provides walls that are easily kept clean year after year at low maintenance cost.

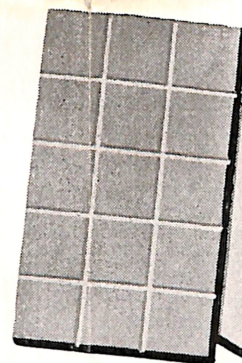

## EASY TO CLEAN !

Once you have a Marlite room you will enjoy its gleaming beauty twice as much just knowing that Marlite is as easy to clean as a china dish! That's right . . . just wipe occasionally with a damp cloth and all of Marlite's original lustre is restored. No more wall and ceiling cleaning drudgery for you . . . not with Marlite!

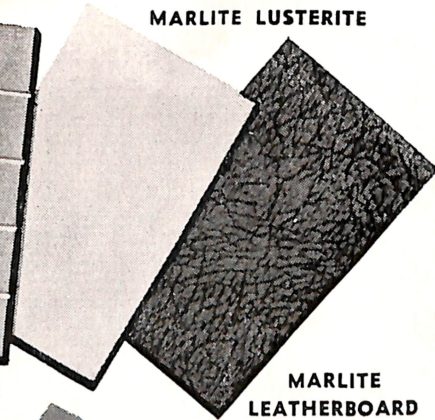

## EASY TO INSTALL !

Marlite is installed using only regular carpenter's tools. Easy to cut and fit, Marlite goes up quickly and easily over new walls or old, with a minimum of fuss and bother.

Large 6ft. x 4ft. wall size panels of Marlite, installed with either waterproof adhesive or 16 gauge panel pins, transforms your rooms into vistas of loveliness with less effort than you ever believed possible.

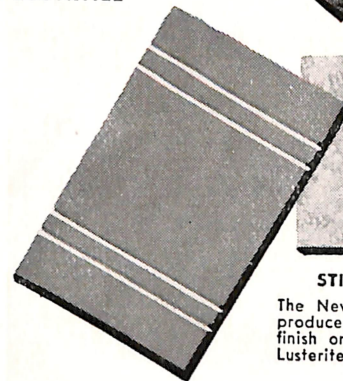

MARLITE LUSTERITE

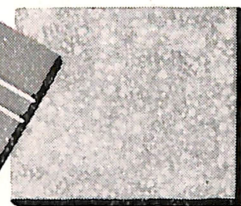

MARLITE LEATHERBOARD

MARLITE LUSTRTILE

MARLITE LEVELINE

STIPPLETONE FINISH

The New Stippletone Finish is produced as an alternative finish on Marlite Leveline and Lusterite.

*All new Deluxe Marlite wall panels are processed on genuine 3/16in. thickness Masonite Tempered Presdwood.*

Marlite transforms drab, uninteresting rooms into rooms of gleaming, sparkling, beauty.
